## SUMMARY

---

I'm a computer scientist proficient in developing full-stack web applications and AI applications to address a range of needs. Additionally, I'm a fervent enthusiast of data science, driven by a deep passion for exploring its intricacies and potential applications. I am also proficient in hardware and software preventive and breakdown maintenance, LAN support, fiber breakdown and preventive maintenance and other Tech support activities. I am also privy to Information Technology Specialist tasks such as troubleshooting and fixing CPUs, Laptops and Desktops both hardware and software. I can perform computer replacements with various computer components such as displays and keyboards.

## EXPERIENCE

---

**Information Technology Specialist at Livewave  
Technology Services, Nakuru**

**June 2024 - Present**

- I am involved in a range of technical activities at Livewave Technology Services:
- Diagnosing and troubleshooting issues in CPUs, laptops, and desktops.
- Resolving both hardware and software problems effectively.
- Performing replacements of various computer components, such as displays and keyboards.
- Providing excellent customer service to clients.
- Selling laptops, desktops, and other computer accessories.
- Ensuring optimal functionality and performance of repaired devices.

**Attachee at Kenya Power and Lighting Company, IT&T  
Department**

**May 2023 - Aug 2023**

- During this period I took part in and learned various skills related to IT and Telecommunications. The skills are the following but not limited to:
- Hardware and Software preventive and breakdown maintenance, fiber preventive and breakdown maintenance, Switch configuration, patch cable maintenance, ICT LAN Support
- Workflow and work ethics, Customer service.

## EDUCATION

---
